Brandy of the Grandees

Fundador is the liqueur brandy specially selected for the Spanish Royal House. Although it is endowed with a distinctive mellowness and flavor that only patient care can bring, it is available at a surprisingly low price.

AN OCEAN OF NATURAL SALT WATER INSTANTLY AVAILABLE

The Hotel St. George Swimming Pool

Hygienically and probably the most scientifically constructed and operated pool in existence.

Sterilized Natural Artesian Salt Water constantly changed.

A competent laboratory takes daily samples of the pool water. The analysis is made in accordance with "The Standard Methods of the American Public Health Association," and the procedure used by the New York City Department of Water Supply for testing drinking water. Bacteriological tests by these methods shows the water to be sterile after 24 hours' incubation at body temperature.

Lockers are washed daily, and all patrons must use the thoroughly laundered and sterilized suits provided.

Every conceivable means of safeguarding against bacteria and infection are constantly used throughout the operation of the pool.

Competent guards and a first aid room are always available.

The St. George Gymnasium, adjacent to the pool, is directed by competent instructors. Carefully arranged programs of exercise are arranged for classes, or individuals, if desired.

The nominal admission to the pool also includes use of suits and gym.

The Management invites your inspection.

(For a complete Life)

Sherry is a wine of rare and glowing qualities. It brings new warmth and makes life glow more pleasantly for all. Why not enjoy wine from one of the oldest sherry vintners in Spain—Pedro Domecq? It is reasonably priced.

COMEX TRADING COMPANY, INC., New York City

Pedro Domecq
Bottled in Jerez, Spain

The House of Domecq was established in 1730. It is now the oldest sherry firm in the world.

PARKSIDE
SANITARIUM
AND
HOSPITAL

For *The Nervous*
The Aged
The Chronic Invalid

Since 1902, Parkside has offered a strictly private home for the care of selected nervous patients.

We now board and care for aged people. Our Physiotherapy Department, Electrical and Mechanical Departments, which have just been enlarged, enables us to treat successfully patients with neuritis, paralysis, and nervous exhaustion, also invalids who suffer from vascular changes causing high blood pressure brought on by age and infectious diseases.

Some chronic invalids remain under our care for a long time. Outside patients may come for treatment and return home. Physicians having nervous or chronic invalids under their care will find Parkside a great aid in successful treatment. Patients may be placed for observation diagnosis. No charge for services in such cases.
